CAREER OBJECTIVE

Computer Engineering graduate with strong skills in SQL/PLSQL,Java(OOPs,String,Array), HTML/CSS Advance Java and Manual Testing I building WorkBridge and Collage ERP System using Java and Oracle SQL. Good understanding of OOPs, database design. Focused on creating clean, efficient, and user-friendly software..

EDUCATION

B.TECH (CSE), Godavari College of Engineering Jalgaon 2021 - 2025
CGPA: 7.29

Higher Secondary, Nutan Maratha College Jalgaon 2019 - 2021
Per: 78.17

SKILLS

Programming: Java(OOPs,String,Array)

Advance Java: JDBC,Hibernate JPA,Servlet,Spring Core,Spring Boot

Database: Oracle SQL, PL/SQL(Index,View,Procedure,Trigger)

Web Technologies: HTML5, CSS3, JavaScript,React(hooks,props,state,usestate)

Testing: Manual Testing

RESTful API Requests: HTTP + GET/POST/PUT/DELETE

Tools: Postman, Jira, Eclipse IDE

PROJECT

Collage ERP System

- Designed and implemented separate Admin and Student modules based on role-based access control (RBAC)
- Admin has full control over system operations such as managing timetable, results, notices, and hostel bookings.
- Enhanced College ERP System using Java, HTML, CSS, and JavaScript Hibernate With JPA, Servlet and oracle SQL with separate Admin and Student modules. has restricted access to view data and perform limited actions like applying for hostel and viewing results.

WorkBridge – Connecting Skilled People With Task Seekers

[Live Demo](#)

- Developed a full-stack web application using Java, Spring Boot, React.js, JavaScript, and HTML with layered architecture,JWT authentication,Spring Data JPA,Restfull APIs
- The platform allows users to post tasks (Like PPT creation, report writing, coding help, and quick services) which are accepted by skilled users based on their expertise
- Integrated PostgreSQL for data management, Deployed frontend on Vercel, and Backend Deployed on Render [GitHub](#)

INTERNSHIP

Passion Software Solution Pvt Ltd INTERN.

SDE INTERN During a **six-month internship** I Worked on developing a College ERP System using HTML/CSS JavaScript, Java, and Oracle SQL,Servlet. The system supports secure Admin and Student login, centralized management of notices, timetables, Result, and Hostel Allocation details. It ensures real-time reflection of admin updates on the student dashboard through a simple and user-friendly interface.

ACHIEVEMENTS

- Best Teacher Award
- Designed scalable backend using layered architecture
